# our story

## Just 2 buds

Our story began as two buds who shared a love & appreciation for flowers. Grace & Angela have been friends since childhood and we're finally pursuing our dream! P.S. Buds birthed from both of our last names - Park & Sung and the fact that we've been buds for a long time!

Our styles cater to different tastes, ensuring that every customer can find the perfect floral arrangements to suit their style. We have bold, colorful arrangements that make a statement while also carrying arrangements that are soft and romantic full of delicate blooms and romantic pastels.
